## Summary

Passionate Full Stack Developer with a Bachelor's degree in Software Engineering and specialized expertise in web development. I combine strong technical skills with practical experience gained through internships and real-world projects, offering a unique perspective on full-stack solutions. Dedicated to building innovative and robust applications.

## Technical Skills

**Frontend:** React, Next.js, Svelte, JavaScript, HTML/CSS

**Backend:** Express.js, Laravel, Spring Boot, PHP, Node.js

**Databases:** MySQL, SQL Server, PostgreSQL, Firebase, Supabase

**Languages:** Java, JavaScript, Kotlin, Python, PHP, C/C++

**Tools:** Maven, Selenium, Kafka, Git, Docker, GitLab CI, AWS, Vercel, Cloudinary

## Experience

### ELECTRONIC SAV

Remote

Full Stack Developer (Freelance Remote), 3 Months

Jul 2025 – Present

- Developed a comprehensive e-commerce application from scratch, serving as a live demo for a repair service.
- Engineered the Next.js frontend hosted on Vercel, and the \*\*Spring Boot\*\* backend deployed on AWS.
- Implemented core e-commerce functionalities: robust order management, secure user authentication, responsive UI, and an admin panel.
- Utilized Cloudinary for efficient image storage and Firebase for data persistence, ensuring scalability.
- Designed and ensured full responsiveness for optimal user experience across all devices.
- **Live Demo:** [electronic-sav.vercel.app](https://electronic-sav.vercel.app)

**Technologies:** Next.js, Spring Boot, AWS, Vercel, Cloudinary, Firebase

### Freelance Client Project

Remote

Full Stack Developer

2025

- Created a complete repair service platform using Next.js and Supabase.
- Implemented user authentication and a service booking system.
- Developed responsive design for an optimal user experience.

**Technologies:** Next.js, Supabase, React

### Axone Sys

Rabat, Morocco

Full Stack Development Intern

July 2024

- Integrated backend services with frontend applications using Spring Boot and Angular.
- Worked on API development and frontend integration.

**Technologies:** Spring Boot, Angular, REST API

### Electronic SAV

Casablanca, Morocco

Software Development Intern

April 2024

- Developed a stock management system using the PHPRad framework.
- Implemented inventory tracking and reporting features.

**Technologies:** PHPRad, PHP, MySQL

### C2EZ

Casablanca, Morocco

Electronics-IT Technician

1 Year

- Specialized in electronics card conception and repair.
  - Performed Arduino programming and machine software troubleshooting.
- Technologies: **Arduino, Electronics, Hardware Repair**
- 

## Notable Projects

---

- Automated Testing Platform:** Developed a testing program for hmizate.com using Java, Maven, and Selenium WebDriver **Java, Maven, Selenium**
- E-Doctorat Backend System:** Built a secure backend system using Spring Boot and Spring Security **Spring Boot, Spring Security**
- Book Library Management:** Full-stack application using Next.js, Spring Boot, Express.js, and Apache Kafka **Next.js, Spring, Kafka**
- QCM Generator:** Interactive quiz platform using SvelteKit with analytics **SvelteKit, JavaScript**
- Task Manager Mobile App:** Android task manager with Kotlin and Retrofit **Kotlin, Retrofit**
- 

## Education

---

- EST Fès**
